

TAMIL TRANSPORT CORPORATION

Driving Guide

About Us,

Tamil Transport Corporation is an Indian Virtual Trucking Company primarily active in Euro Truck Simulator. Our motto is 'Live to Drive'. Our aim is to create a community for ETS 2 MP especially Tamil Speaking Drivers. Our company was officially registered on TruckersMP and for statistics tracking we are using Trucksbook software. We officially started our TruckersMp VTC on 28th July 2020. After few months we initiated TTC into Trucksbook. Initially we just used to drive as a group. We brought major changes in our rules and policies from April 2021 like introducing monthly target, Driver of the Month and providing training and conducting test for new drivers. Right now we are improving ourselves and moving ahead to become a verified VTC in TruckersMP community.

1. Important TruckersMP Rules:

- Traffic laws and road signage must be obeyed. This means European road laws and signage must be followed in ETS2 and American road laws and signage must be followed in ATS. Failure to adhere to the respective road laws and signage could result in a punishment. Traffic lights and stop signs can be ignored if no other users are in the immediate area. Also, overtaking is allowed if no other users were put in any risk of an accident. Speeding, while allowed, is not recommended. Speeding can lead to accidents and can factor in a punishment decision. Baiting other players into accidents will not be tolerated and is punishable.

- Using any kind of tool to change gameplay, including but not limited to using the in-game console, trainers or cheat engine in order to bypass the speed limiter, to jump hack, no collision hack or anything similar. Bypassing the server-sided auto kick system via save editing. Misusing features such as ghost mode to cause damage to others while connecting to the servers.
- Causing a collision with another player intentionally or due to negligence. Attempting to cause a collision by steering towards their vehicle.
- Restricting a user's travel path, blocking entrances to highways or other entry points or anything similar. Failure to use the service feature (F7+Enter) when needed might result in a punishment.
- Driving the incorrect way down a road. Overtaking or undertaking another player in an area of extremely low FPS and/or in areas with large amounts of traffic and/or resulting in an accident or anything similar. This also includes overtaking or undertaking on any one-lane in each direction road where there is excessive traffic such as a traffic jam. Areas with a large amount of traffic are considered to be 25+ players
- Driving in such a way that is considered unsafe and that puts other players in danger. This includes but is not limited to: driving backwards, ignoring traffic lights or road signage, speeding, racing other users (except in Tucson, Phoenix, and Södertälje (ProMods) racetracks). Driving outside of the map boundaries or in areas that are not covered by the mini map/GPS. Hidden roads which are intentionally part of the map are not included. You can use these roads. In ProMods, you can drive on unlocked roads or paths. Attempting to use desync lag or quick saves in

order to cause damage to another user's vehicle. Using the ghost mode feature to go through traffic jams.

2. TAMIL TRANSPORT CORP. GENERAL RULES

- Every employee should complete the monthly target without fail. Exceptions can be given for valid reasons but the final decision is upto the management.
- You must know the basic operations in trucksbook. Only Real Jobs (below 100 Kmph) are valid for monthly target. So please do not cruise over 95 Kmph. Cancel the job if the speed reached 100+ Kmph. *Monthly target and speed limit are our primary requirement.*
- Be respectful to everyone in discord server. Please follow every announcement without fail. Missing important updates and personal pings for several times will not be tolerated.
- Everyone atleast must try to attend 1 convoy per month.
- You can use our dispatcher to get your preferred jobs by requesting in #Wanted Jobs page under TRUCKS BOOK tab in our discord server.
- After getting license/trainee role you can attend the convoy with our convoy profile. You should not edit any of the trucks since it can ruin our convoy formation.
- According to your activity you can get various roles like DI role, Events team role etc. Vacancy notifications will be posted.
- Every month we award “DRIVER OF THE MONTH” with an attractive gift card in steam and occasional give away events will be conducted.

- Use in game tag as **“Tamil TC”**. RGB: 255 144 000. Always use this tag and always be proud to represent our VTC
- If you have any issues or doubts contact our support team or raise a ticket using ticket tool in our discord server.
- If you are failed to complete the target or for rules violation three warnings will be giving. For each warning you have to respond to the management and if you do not respond on the 3rd you will be fired after 3rd warning without any further notice.
- Monthly limit is compulsory for staff team. No exceptions since they are the forerunners to the company.

3. GUIDE FOR NEW MEMBERS TO GET OUR TTC LICENSE:

- You should have at least original ETS 2 base game and at least 2hours play time in steam. You should have an account in TruckersMP and Trucksbook. Apply in TruckersMP and trucksbook with your discord name. Without discord name your application will not be processed.
- After accepting your application our staff team will contact you. After that you should know the basic rules of TMP and TTC. You may be checked orally about the rules. This is the end of first step.
- 2nd step is Driving test. It will be conducted by any of our recruiters. Before attending the test you should know all the rules and contact any of our Driving Instructors to clear your doubts

- In driving test you will be asked to do a job around 200 kms from any city. Recruiter will tail back during test and he will notice basic TMP rules, indicator usage, corner cuts, roundabouts, off/on ramp, picking up trailer, braking and situational awareness, mirror usage etc. **At the end of the job only reverse parking must be done and must follow VTC speed limit.** You will be failed only if any of the one of the above is violated.

4. CONVOY RULES:

- Attending convoys and hosting convoys are the ultimate goal and fun for every vtc in TMP. You will be given a number after getting your license e.g. 003 – TTC MUTHU BHAI. This is your order/position in the convoy. This number is given based on skills, ping issues and activity. So don't worry if u are placed last. Mostly it will be changed after every 2 to 3 convoys so please try to attend all your position will be automatically changed. (If after No.60 61,62,63 were absent 64 should take the position next to No.60)
- You must know the route and time for the convoy and other details atleast 2 hours before the convoy. Avoid asking last minute queries about the places and truck models or other issues.
- Use only TTC convoy profile to maintain uniform standard in the convoy. Do not edit any vehicles in the profile. Any changes in exteriors will not be tolerated.
- Before convoy check your fuel, truck conditions and rain propability.

- Overtaking is not allowed. If you are going to leave convoy at the half way please inform our convoy controllers and slowly pull over to the stop lane with proper indicator and mirror usage.
- Please maintain 100 to 150 m distance between the trucks and please know about your front and back convoy partners and communicate about braking and speed changes. Ultimate patience and concentration is the key for safety completion of convoy.
- During convoy please avoid unnecessary chatting in “CONVOY VC” and please listen carefully concoy control’s instructions.
